## Quick Start

- 1 Choose a game piece and put it on the start space.
- 2 Separate the Ms. Goody Gumdrops cards from the FlapDoodle cards and put them in two piles near the game board. Make sure to shuffle each pile.
- 3 Start playing! The youngest player goes first. Just draw a FlapDoodle card and do what it says. If you successfully complete the card, move ahead the number of spaces on the top right of the card. Play continues to the left.

## Contents

## Safety

The object of FlapDoodle is to have fun. If you feel that you can't SAFELY follow the instructions on any card you may pick another card to play.

## Directions

FlapDoodle is a game of totally silly nonsensical fun! And it's super easy to play! It's as simple as picking up a card and doing what the card tells you to do. If you can do that, you can play FlapDoodle right now.

First, put the cards in two piles next to the game board. Put FlapDoodle cards in one pile and Ms. Goody Gumdrops cards in the other pile. Make sure to shuffle each pile.

Choose a character game piece and put it on the start space. The youngest player starts and play continues to the left.

**When it's your turn, there are a few simple steps to follow:**

1. Draw a FlapDoodle card and **read the card out loud** so that everyone can hear what the card says.
2. Do what the card tells you to do. If the card has a **TIMER** on it, make sure to set the timer before you start. If you do what the card tells you to do, move your character as many spaces as the card says at the top. Discard the card to the bottom of the FlapDoodle card pile.
3. If you land on a Ms. Goody Gumdrops space, draw an orange Ms. Goody Gumdrops card and keep it in front of you. These cards can help you move ahead during the game. Play your Goody Gumdrops cards any time during the game to move ahead extra spaces. Once you have used a Ms. Goody Gumdrops card discard it to the bottom of the Ms. Goody Gumdrops pile.

**There are three kinds of cards:**

1. **FlapDoodle** cards ask you to answer crazy questions, use your imagination, or perform silly stunts. If you do the what the card tells you to do, you get to move ahead.
2. **Mr. SourFace** is a cranky old man. When you draw a Mr. SourFace card, watch out because he'll make you move back.
3. **Ms. Goody Gumdrops** is happy and helpful. When you land on a Ms. Goody Gumdrops space on the board you may draw one of these cards and Ms. Goody Gumdrops may help you move ahead.

The first player to make it through the FlapDoodle factory and reach the finish space wins the game!
